STUDENTS FEEDBACK ON CURRICULUM AND SYLLABUS

ANALYSIS REPORT IST BDS

TOTAL NO OF RESPONDERS- 35 students

ACADEMIC YEAR- 2022-2023

SUMMARY-

The feedback on curriculum and syllabus for academic year 2022-2023 was collected from students of Ist year BDS. Google forms were given and we received 35 responses. 43.8% students responded as curriculum is very good and 43.8% responded as good.

The responses of students to being informed about curriculum and the expected competency was good.

GENERAL HUMAN ANATOMY

The feedback were received for course content from Ist BDS students. It has been observed that for year 2022-2023 is good. For the feedback of adequacy of course content it has been observed that for

lokar

28% agree, 67% strongly agree and 3% disagree and 2% strongly disagree that departmental level subject expert committee meeting are conducted to review for syllabus.

65% strongly agree, 26% agree whereas 8% disagree and 1% strongly disagree that they were given enough freedom to contribute their ideas on curriculum design and development.

18% agree, 76% strongly agree whereas 3% disagree and 3% strongly disagree that board of studies is taking care to ensure the current pattern and relevance of programmes offered.

27% agree, 68% strongly agree whereas 5% disagree to the assessment practices adopted by the institution for measuring students performances like OSCE, OSPE.

18.8% faculty agree, 78.2% strongly agree and 3% disagree that the facilities and learning resources available in the institute are adequate and effective for learner centered teaching.

SUGGESTIONS

- 2) More instruments and equipments should be made available to promote research orientation in the students.
- 4) There should be more focus towards the recent concepts.
- 5) The curriculum should be updated regularly so that all advanced techniques and practices can be included.
- 7) More CDE programmes should be arranged for students and interns.

A good infrastructure ..

College is so nice. But college should contribute more towards the curriculum.

Practice management should be included in the curriculum

Updation of equipments and instruments.

To impart newer learning techniques and introduce recent technologies for future generation post graduates

Best college to learn n development of students

Need more advanced equipments

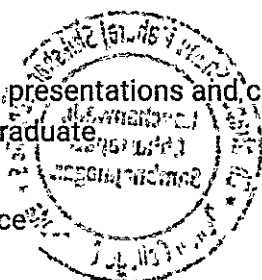

Everything is up to the mark nothing to suggest as such

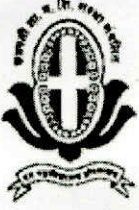

Satisfactory Academics

Need more advance technologies

More involvement in research, publications, presentations and community work needed for a holistic development of the dental school graduate

Have to more concentrate on clinical practice
